

# Databases

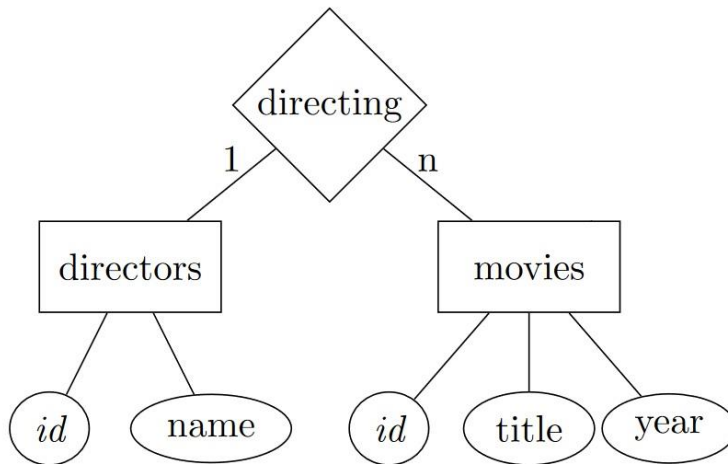

Brief Summary

# Relational databases

- Tables

title	director	year
12 Angry Men	Sidney Lumet	1957
Raiders of the Lost Ark	Steven Spielberg	1981
War of the Worlds	Steven Spielberg	2005
Manos: The Hands of Fate	Harold P. Warren	1966

- Modeling – ER diagram

# SQL Language

## 1. Creating databases

- Data types for fields (eg. CHARACTER(*m*), INTEGER)
- CREATE database, table
- Enforce constraints (eg. UNIQUE, FOREIGN KEY)

# SQL Language

## 2. Various operations

- SELECT fields or rows
- INSERT rows
- UPDATE rows
- DELETE rows

# SQL Language

## 3. More complex queries

- Conditions (WHERE)
- Search for regexp (LIKE)
- Ordering results (ORDER BY)
- LIMIT number of results
- GROUP BY
- JOIN multiple tables

# Many further challenges

- Indexing – fast access to records
  - Hash tables
  - B+ trees
    - Balanced (→ has to be maintained after operations)
    - Entries in leaves
- Transactions
  - Atomic execution vs. Concurrency
  - SQL isolation levels

# Verification cheatsheet for SQL exercises

- Exercise 3

1. Starts with "A Good Old..."
2. "xXx", "tom thumb"  
(note: because of case sensitivity)
3. 6300
4. 87
5. 2524
6. 100/0/59.051
7. 1924, 1939, ...
8. 12 movies, "Xenia" is the first
9. 7 and 24
10. 10 movies

- Exercise 5

1. 11 rows
2. 577
3. 20 rows
4. "Clouds of..." by 642
5. 74.94/642/1
6. 2 rows
7. 9 rows
